

# Batting Clinics

These coaching sessions will concentrate on developing the batting basics using tennis ball drill work and game scenarios.

The aim is for the participants to enjoy participating through fun and engaging sessions, with a focus on developing a sound technique to assist with long term success within the game. It is imperative that every player is hitting as many balls as possible, in order to develop the fundamental movements and skills.

Players will be encouraged to attempt the new learning in the game scenarios. These sessions are a good way to develop and improve techniques before indoor club training and nets begin after Christmas.
